Leading Bubble Wrap Manufacturer

PRODUCT RANGE BY GOTA PLASTIC INDUSTRY

Bubble Wrap Roll

2-Layer Bubble Wrap:

Our 2-layer bubble wrap is perfect for light to medium protection needs. It features a single layer of air-filled bubbles and a smooth outer layer, providing cushioning ideal for everyday packaging. Whether you're shipping small electronics, delicate items, or lightweight products, our 2-layer bubble wrap offers reliable protection at an economical price.

Key Features:

- Lightweight and flexible
- Provides essential cushioning for fragile items
- Cost-effective solution for general packaging needs
- Easy to cut and wrap around items of various shapes and sizes

3-Layer Bubble Wrap:

For those who require extra protection, our 3-layer bubble wrap is the ultimate solution. With an additional layer of bubbles, this wrap offers enhanced cushioning and durability. It's particularly suited for heavy or highly fragile items that need maximum protection during transit. The 3-layer design ensures that your products are shielded from impacts, vibrations, and potential damage.

Key Features:

- Extra strength and durability with three layers of protection
- Superior cushioning for heavy or highly fragile items
- Ideal for long-distance shipping or storage in challenging conditions
- Versatile and effective for various industries

Single Layer Bubble Wrap

Double Layer Bubble Wrap

(Extra Layer of Plastic Film)

4-Layer Bubble Wrap:

PE Laminated:

Perfect for providing superior protection and durability.

Aluminium Foil Laminated:

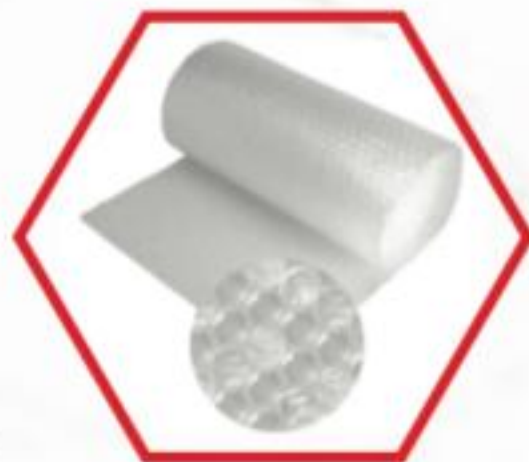

Offers enhanced insulation properties.

EPE Laminated:

Combines softness with effective shock absorption.

Paper Laminated:

Eco-friendly and recyclable for sustainable packaging.

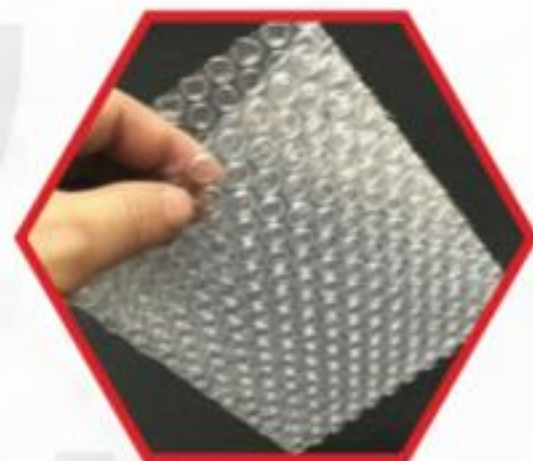

Bubble Bags:

2-Layer Bubble Bags:

Lightweight, ideal for general protective packaging.

Our 2-layer bubble wrap is perfect for light to medium protection needs. It features a single layer of air-filled bubbles and a smooth outer layer, providing cushioning that's ideal for everyday packaging. Whether you're shipping small electronics, delicate items, or lightweight products, our 2-layer bubble wrap offers reliable protection at an economical price.

3-Layer Bubble Bags:

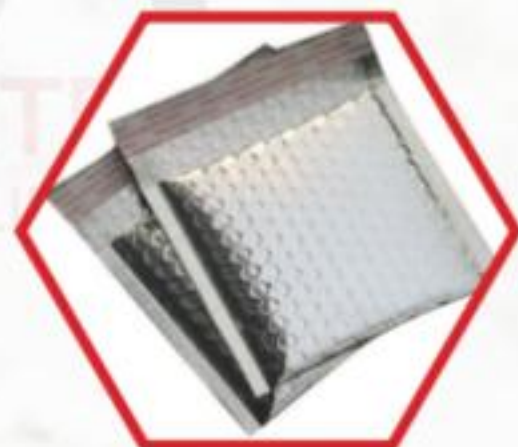

Offers extra protection with a thicker design.

Laminated Bubble Bags:

4-Layer Bubble Bags (Border Seal Tech):

Premium protection with innovative border seal technology for added durability.

For the highest level of protection, our laminated bubble bags are the ideal choice. These bags are designed with an additional layer of material to enhance durability and puncture resistance. We offer several lamination options—Paper, EPE (Expanded Polyethylene), Non-Woven, and PE (Polyethylene)—to cater to various industries and specific needs.

Bubble Sheets:

2-Layer Bubble Sheets:

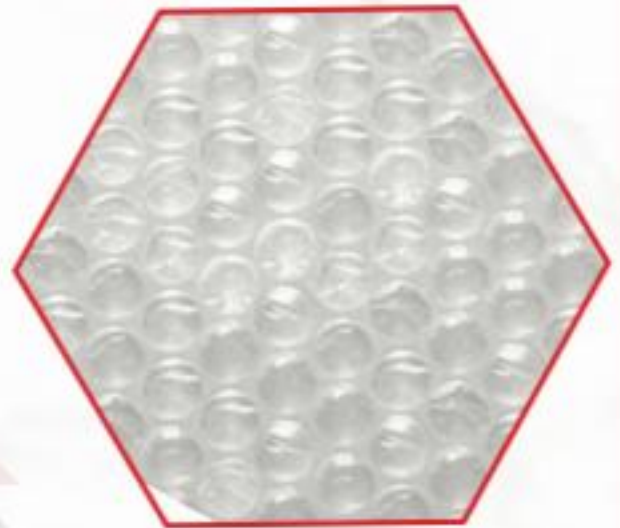

Basic cushioning for versatile uses.

3-Layer Bubble Sheets:

Thick, durable sheets for enhanced protection.

Laminated Bubble Sheets:

Designed for specific needs with customized lamination.
