امام MAM
Power Fabricators

CEO MESSAGE

Ch. Imam Ul Amin (CEO)

Imam Power Fabricator, the subsidiary of Imam Trading and Contracting SMC (Pvt) Ltd. is the state of art Electromechanical factory built over 6576.14 square meters. It is located in RCCI Industrial State, Rawat. We have the capability to handle small, medium and large fabrication jobs. We are approved and appreciated by the top government organizations of Pakistan.

VISION

To be a front runner in field of Electrical and Mechanical Engineering by introducing leading innovation and technology.

MISSION

To provide wide range of quality products and services by delivering superior values to our customer with a focus on our chosen markets.

WHY WE??

We are capable to undertake large fabrication projects of steel and other metals. We can also develop complete MV substation equipment. Recently facility to reclaim distribution transformers 11KV-440V has been established and start functioning. We are approved by IESCO, WAPDA, NTDC and several other strategic establishments. Our other facilities consist of Powder Coating and Electro Plating.
